REIMBURSEMENT AMOUNT

The reimbursement methodology for miscellaneous codes is generally stated in your contract with the payer or provider manual. Miscellaneous codes are sometimes referred to as Not Otherwise Classified (NOC), Not Otherwise Specified (NOS) or Non-Assigned codes. The most common methodologies are:

- MSRP minus ___%
- Cost plus ___%
- Usual and Customary (average amount that you bill for similar devices)
- Average Regional Amount billed for similar devices
- Lesser of the above

It is highly recommended to carefully review your contract and provider manual when providing a miscellaneous coded product.

MEDICAL REVIEW

Sometimes codes requiring narratives are sent to Medical Review regardless of proper claim submission. If this happens, you will need to submit all documentation (including proof of medical necessity and reason for replacement) as the claim will likely undergo medical necessity review.
